

TWIN

TWIN SCISSORS LIFT

**NO COMPRESSED AIR REQUIRED TO
OPERATE THE LIFTING PLATFORM**

Support plates and pull-outs granule-coated for optimum protection against vehicle slippage

Full lifting power even from the bottommost lifting height range thanks to innovative cylinder lift-out support

High level of operating comfort due to continuously adjustable support plate length, no subsequent pushing of the vehicle required

Quiet setting in the lowest position due to lowering delay installed as standard

Base frame with dual-layer powdered varnish boosts corrosion-resistance
